PROFESSIONAL SUMMARY

Senior Frontend Developer with **7+ years** of experience in web development, including **3+ years** of hands-on expertise in **React.js and Next.js**. Proven track record of improving web performance by up to 40% through lazy loading, code splitting, and Core Web Vitals optimization — consistently achieving Lighthouse scores of 85–95+. Specializes in scalable component architecture, SSR/SSG, REST API integration, and WCAG-compliant, SEO-optimized frontend applications. **Immediate Joiner.**

TECHNICAL SKILLS

Frontend:	React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3
React Ecosystem:	React Router, React Hooks, Context API, Component-Based Architecture, SSR/SSG
Styling & UI:	Tailwind CSS, Bootstrap 5, Sass/SCSS, Responsive Design, Mobile-First Development
API Integration:	REST APIs, Axios, Fetch API, Dynamic Data Rendering
Performance:	Core Web Vitals, Lighthouse, Lazy Loading, Code Splitting, Bundle Optimization
Accessibility:	WCAG, ARIA, Semantic HTML, Cross-Browser Compatibility
Tools & Platforms:	Git, GitHub, NPM, CI/CD, Vercel, Netlify, Google Search Console
Design Tools:	Figma, Adobe XD, Photoshop, Canva

PROFESSIONAL EXPERIENCE

Senior Frontend Developer

Indai Technologies | Aug 2024 – Present

- Developed scalable, responsive frontend applications using React.js, Next.js, and Tailwind CSS for high-traffic platforms
- Engineered reusable component architecture using React Hooks and modular design patterns, improving development efficiency by ~25%
- Optimized performance using lazy loading and code splitting, achieving Lighthouse scores of 85–95+
- Reduced page load time by up to 40%, improving Core Web Vitals and overall user engagement
- Integrated 10+ REST APIs using Fetch/Axios to build dynamic, data-driven user interfaces
- Maintained WCAG accessibility standards and SEO-friendly frontend structure across all projects

Frontend Developer

Infocon Technologies | Sep 2023 – Jul 2024

- Delivered responsive and pixel-accurate UI for 25+ projects using React.js, HTML5, CSS3, and Bootstrap
- Improved page performance by ~30% through asset optimization and efficient frontend rendering strategies
- Built reusable and maintainable UI component libraries, reducing development redundancy by ~20%
- Implemented WCAG and ARIA accessibility standards, improving usability and compliance across deliverables
- Coordinated with clients and cross-functional teams to deliver all projects on schedule

Frontend Developer

Cliffex Software Solutions | Oct 2022 – Sep 2023

- Transitioned from web design to frontend development, building interactive UIs using React.js and modern JavaScript
- Converted Figma, Adobe XD, and PSD designs into responsive, cross-browser compatible web interfaces
- Improved application routing and performance, resulting in faster load times and smoother navigation
- Ensured mobile-first design consistency across multiple devices and screen sizes

Senior Web Designer

B. Jain Publishers | May 2021 – Oct 2022

- Designed and developed responsive UI for eCommerce and publishing platforms, improving usability and navigation
- Reduced bounce rate by 18% through targeted UI enhancements and SEO optimization

- Developed scalable and SEO-optimized frontend applications using React.js, improving performance and overall user experience
- Converted PSD and Adobe XD designs into pixel-perfect, responsive HTML/CSS interfaces with cross-browser compatibility

Web Designer

Goyal Brothers Prakashan | Jul 2018 – May 2021

- Specialized in PSD-to-HTML conversion, delivering responsive, pixel-accurate web pages for 25+ publications
- Designed UI assets including banners, landing pages, and marketing creatives for digital campaigns
- Implemented SEO-friendly semantic HTML to improve search visibility across client websites
- Maintained mobile responsiveness and cross-browser compatibility across all deliverables

KEY PROJECTS

IndiaResultLive

Government Job & Exam Portal | indiaresultlive.com | Tech: Next.js, Bootstrap, CSS3, REST APIs, Lighthouse

- Built a high-traffic Sarkari Result portal; achieved Lighthouse performance score 90+ via optimization
- Implemented dynamic routing for jobs, results, admit cards, and answer keys with real-time API data
- Built SEO-optimized, WCAG-compliant pages significantly improving organic search visibility
- Ensured responsive UX across desktop and mobile with semantic HTML and structured layouts

AllConvertHub

Online Utility Platform | allconverthub.com | Tech: React.js, Next.js, CSS3, Web Speech API, Canvas API

- Developed 10+ browser-based utility tools including Text-to-Speech, Speech-to-Text, image conversion, and PDF tools
- Used Web Speech API, Canvas API, and FileReader API for fully client-side frontend functionality
- Implemented SSR with Next.js for improved SEO and faster initial page loads
- Achieved SEO-optimized page structure resulting in improved organic search rankings via SSR implementation

INTELLISPINE

Clinic Management System | Nov 2022 – Jul 2023 | Full Time | Tech: React.js, Next.js, REST APIs, Tailwind CSS

- Developed responsive and user-friendly frontend interfaces for clinic and patient management workflows
- Built reusable UI components and scalable layouts using React.js, Next.js, and Tailwind CSS
- Integrated REST APIs for dynamic data rendering and seamless real-time user experience
- Implemented mobile-first design, cross-browser compatibility, and optimized React component architecture
- Improved frontend performance and navigation flow for a smooth clinical operations experience

KEY ACHIEVEMENTS

- Improved frontend performance by up to 40% using lazy loading, code splitting, and Core Web Vitals optimizations
- Achieved Lighthouse scores of 85–95+ across production-ready React.js and Next.js applications
- Delivered 25+ responsive, pixel-accurate frontend projects across multiple business domains
- Reduced client bounce rate by 18% at B. Jain Publishers through UI enhancements and SEO optimization
- Built and deployed 2 live public products (IndiaResultLive & AllConvertHub) from scratch
- Converted 50+ Figma/PSD/XD designs into responsive, production-ready web interfaces over 7+ years
