PROFESSIONAL SUMMARY

Frontend Developer with 7+ years of experience, including 3+ years specializing in React.js and Next.js. Builds responsive, SEO-friendly, and performance-optimized web applications using JavaScript, TypeScript, Redux Toolkit, Tailwind CSS, and REST APIs. Proven track record in reusable UI architecture, dynamic routing, and dashboard development. Built SEO-friendly React.js and Next.js applications, including IndiaResultLive.com, with strong focus on API-driven UI, dynamic routing, reusable components, and frontend performance optimization.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3

React Ecosystem: React Hooks, React Router, Redux Toolkit, Context API, Component-Driven Architecture

Next.js: SSR, SSG, Dynamic Routing, Metadata/SEO Optimization, API Routes

Styling: Tailwind CSS, Bootstrap 5, Responsive Design, Mobile-First Development, Cross-Browser Compatibility

API Integration: REST APIs, Axios, Fetch API, Real-Time Data Rendering

Performance: Lazy Loading, Code Splitting, Core Web Vitals, Page Speed Optimization

Tools & Platforms: Git, GitHub, Vercel, Netlify, NPM, Figma (Design-to-Code)

PROFESSIONAL EXPERIENCE

Independent Frontend Developer

Freelance & Personal Projects | Aug 2024 – June

- Designed and developed 15+ responsive business websites from scratch using HTML5, CSS3, and JavaScript for international clients, including Modul-Pack GmbH (Germany), an industrial packaging company, later converting the codebase to WordPress for client content management.
- Built and shipped production-ready personal projects, including IndiaResultLive.com and AllConvertHub.com, with API-driven pages, dynamic routing, SEO-friendly structure, and optimized frontend performance.
- Improved project structure, component reusability, metadata setup, page loading speed, and responsive UI quality across personal and freelance frontend projects.
- Strengthened hands-on frontend architecture skills including React Hooks, state management, lazy loading, code splitting, reusable component design, and Core Web Vitals optimization.

Frontend Developer

Infoicon Technologies | Oct 2023 – Jul 2024

- Developed scalable and responsive frontend applications using React.js, Next.js, JavaScript, and Tailwind CSS.
- Integrated REST APIs using Axios and Fetch API to fetch, manage, and render dynamic data across frontend modules.
- Improved frontend performance using lazy loading, code splitting, and component-level optimization.
- Converted Figma designs into pixel-perfect, mobile-first, and cross-browser compatible user interfaces.
- Collaborated with backend, and QA teams in an Agile environment to deliver production-ready frontend features.

Frontend Developer

Cliffex Software Solutions | Nov 2022 – Sep 2023

- Developed modern, responsive user interfaces using React.js, Next.js, JavaScript, Bootstrap 5, and CSS3.
- Built reusable UI components and responsive dashboard layouts to improve frontend scalability and maintainability.
- Developed INTELLISPINE, a clinic management system, including patient management and appointment dashboard modules.
- Integrated REST APIs to render dynamic patient and appointment data across frontend modules.
- Optimized page loading speed, frontend performance, and UI responsiveness.
- Collaborated with QA and development teams for code reviews, bug fixing, testing support, and Agile delivery.

UI Developer & Web Designer

B. Jain Publishers | June 2021 – Oct 2022

- Developed responsive web pages using HTML5, CSS3, Bootstrap, and JavaScript

- Converted PSD and Figma designs into pixel-perfect responsive interfaces
- Improved website usability and mobile responsiveness
- Worked on SEO-friendly and cross-browser compatible UI
- Collaborated with frontend developers and designers for UI enhancements
- Maintained clean and scalable frontend layouts

Web Designer

Goyal Brothers Prakashan | Jul 2018 – May 2021

- Developed responsive web pages using HTML5, CSS3, Bootstrap, and jQuery
- Specialized in PSD-to-HTML conversion and responsive layouts
- Created banners, landing pages, and UI assets for digital campaigns
- Improved mobile responsiveness and browser compatibility
- Worked closely with design and development teams
- Maintained clean and user-friendly website interfaces

KEY PROJECTS

IndiaResultLive - Government Job & Exam Portal

indiaresultlive.com | Tech Stack: Next.js, JavaScript, Bootstrap, REST APIs, SEO, Dynamic Routing

- Developed and maintained a Next.js-based government job and exam portal.
- Implemented dynamic routing for jobs, results, admit cards, answer keys, and notifications.
- Integrated REST APIs for dynamic and real-time content rendering.
- Built SEO-friendly pages using Next.js metadata, clean URL structure, and responsive UI.
- Achieved 70K+ Google Search impressions and 1.4K+ organic clicks within 28 days through technical SEO, metadata optimization, performance improvements, and content indexing.

AllConvertHub - Online Utility Platform

Tech Stack: Next.js, JavaScript, Web APIs, REST APIs, Bootstrap 5, SEO

- Developed browser-based utility tools using React.js and Next.js
- Implemented Text-to-Speech, Speech-to-Text, and image conversion features
- Used Web APIs and client-side rendering for interactive functionality
- Developed responsive and SEO-friendly frontend structure
- Improved performance and user experience across devices

INTELLISPINE - Clinic Management System

Tech Stack: React.js, JavaScript, REST APIs, Tailwind CSS

- Developed responsive frontend interfaces for clinic management workflows
- Built reusable UI components and dashboard layouts
- Integrated REST APIs for dynamic patient and appointment data
- Optimized frontend performance and navigation experience

KEY ACHIEVEMENTS

- Grew IndiaResultLive.com from zero to 70K+ Google Search impressions and 1,400+ organic clicks within 28 days through technical SEO, metadata optimization, and frontend performance improvements.
- Delivered 15+ responsive business websites independently as a freelance frontend developer, managing design-to-development workflows for international clients, including a Germany-based industrial client.
- Improved frontend performance across personal and client projects using lazy loading, code splitting, responsive image optimization, and Core Web Vitals-focused improvements.
- Built and shipped 2 production-ready platforms — IndiaResultLive.com, AllConvertHub.com— each addressing a distinct real-world use case from concept to deployment.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Applications (BCA)
Vinayaka Mission University

JavaScript ES6 Certification - Unstop

ReactJS Certification - Unstop
