JAINUL KHAN

Frontend Developer (9 Yrs) | React.js & Next.js Specialist (Nearly 4 Yrs) | Immediate Joiner

Noida, India | +91 7631975588 | jainulhk.web@gmail.com

LinkedIn: linkedin.com/in/jainulkhan | Portfolio: jainulhk.vercel.app

PROFESSIONAL SUMMARY

Frontend Developer with **9 years** of overall web development experience, including **nearly 4 years** specializing in **React.js and Next.js**. Skilled in building reusable UI components, integrating REST APIs, managing application state with **React Hooks, Context API, Redux Toolkit** and **TypeScript**, and optimizing frontend performance. Experienced with **responsive design, Tailwind CSS, Bootstrap, SSR, SSG, technical SEO,** and cross-browser compatibility. **Immediate joiner** with a proven track record of reducing UI development time by up to 35% and improving page load performance by up to 30% across production applications.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript ES6+, TypeScript, JSX, HTML5, CSS3

React Ecosystem: React Hooks, Props & State, Context API, Redux Toolkit, React Router, Reusable Components

Next.js: App Router, SSR, SSG, Dynamic Routing, Metadata, SEO Optimization

API & Data: REST APIs, Axios, Fetch API, JSON, CRUD, API Integration

UI & Styling: Tailwind CSS, Bootstrap 5, Responsive Web Design, Mobile-First, Cross-Browser Compatibility

Performance & Tools: Lazy Loading, Code Splitting, Image Optimization, Core Web Vitals, Git, GitHub, npm, Vercel, Netlify

WORK EXPERIENCE

Frontend Developer (Freelance) | Indai Technologies - Delhi *Aug 2024 - Present*

- Built responsive React.js and Next.js applications using a reusable component architecture and TypeScript, reducing new-feature UI development time by an estimated 25-35%.
- Integrated backend REST APIs using Axios and Fetch API to support dynamic data retrieval, form submissions, and frontend application workflows.
- Managed complex UI state across 5+ application modules using React Hooks and Context API, applying dynamic routing and reusable state patterns to improve scalability.
- Reduced initial page load time by up to 30% through lazy loading, code splitting, and image optimization.
- Used Git and GitHub for version control, code collaboration, and maintaining frontend codebases across development workflows.

Frontend Developer | Infoicon Technologies - Noida *Oct 2023 - Jul 2024*

- Built data-driven frontend features using React.js, React Hooks, and reusable components across 8+ application modules, cutting duplicate code by an estimated 20% through shared UI patterns.
- Connected 12+ backend REST APIs using Axios and Fetch API to support dynamic data retrieval, form submissions, and real-time application workflows.
- Applied lazy loading, code splitting, component-level optimization, and asset compression, reducing average page-load time by up to 25%.
- Collaborated with a 6+ member cross-functional team of backend developers, UI/UX designers, and QA engineers in an Agile environment, shipping production-ready features across 15+ sprints.
- Debugged and resolved 40+ frontend issues, improving application stability, usability, and cross-browser compatibility across production interfaces.

Frontend Developer | Cliffex Software Solutions - Noida *Oct 2022 - Sep 2023*

- Developed modern, responsive, and scalable user interfaces using React.js, Next.js, JavaScript, HTML5, CSS3, and Tailwind.
- Built and maintained reusable React components and modular UI architecture to improve code reusability and maintainability.

- Developed INTELLISPINE, a clinic management system, including patient management, appointment scheduling, and dashboard modules.
- Implemented responsive layouts and cross-browser compatible interfaces for improved usability across desktop, tablet, and mobile devices.
- Optimized frontend performance through code optimization, lazy loading, reusable components, and efficient API handling, improving page load speed and user experience.

UI Developer | B. Jain Publishers - Noida *Jun 2021 - Sep 2022*

- Produced 20+ responsive websites and user interfaces for the publishing industry using HTML5, CSS3, Bootstrap, and jQuery.
- Converted design files and UI requirements into pixel-accurate, responsive, cross-browser compatible web pages.
- Partnered with a 4-person design and development team to ship UI improvements on a weekly release cycle.
- Tested and refined interfaces across browsers and devices, resolving layout and responsiveness issues before release.

Web Designer | Goyal Brothers Prakashan - Noida *Sep 2017 - May 2021*

- Converted design concepts, PSD/layout files, and requirements into responsive HTML/CSS interfaces with accurate spacing, typography, and visual structure.
- Created responsive layouts for desktop, tablet, and mobile, testing interfaces across 5+ browsers and screen sizes.
- Performed UI testing and troubleshooting, identifying and fixing layout, alignment, and cross-browser compatibility issues.

KEY PROJECTS

INTELLISPINE - Hospital Management System Website

Tech Stack: *React.js, JavaScript, TypeScript, REST APIs, Axios, Tailwind CSS, CSS3*

- Built a responsive 3-panel Hospital Management System using React.js, with separate Super Admin, Admin, and Dashboard interfaces.
- Built patient management workflows covering registration, appointments, patient profiles, consultation history, and doctor-wise records.
- Implemented visit and fee management to track patient visits, consulted doctors, visit counts, and payment records.
- Integrated 10+ REST APIs using Axios and Fetch API to support form submissions, data retrieval, and application workflows.

India Result Live - Government Job & Exam Portal

Tech Stack: *React.js, Next.js, JavaScript, Bootstrap, REST APIs, Dynamic Routing, SSR, SSG, Technical SEO, Metadata, Schema Markup*

- Built a responsive, SEO-focused web application using Next.js and React.js.
- Integrated REST APIs using Fetch API to retrieve dynamic job and exam data and power data-driven frontend pages.
- Improved organic search visibility through technical SEO and optimized page implementation.
- Achieved 70K+ Google Search impressions and 1.4K+ organic clicks within 28 days.

EDUCATION

Bachelor of Arts (B.A. Hons.)

Magadh University, Bodh Gaya

CERTIFICATIONS

- JavaScript ES6 Certification - Unstop
- ReactJS Certification - Unstop
